
TUESDAY, MARCH 12TH

- 11:30 – 12:00 pm **Advancing marine survey and inspection with DriX USV**
- 02:00 – 02:30 pm **Empower accurate subsea positioning across all applications with new scalable Gaps USBL systems**
- 03:00 – 03:30 pm **Elevate survey industry standards with Sams Series sonars**
- 04:00 – 06:00 pm **Happy hour**
-
-

WEDNESDAY, MARCH 13TH

- 10:30 – 11:00 am **Unveiling new generation of Inertial Navigation Systems for AUVs and ROVs**
- 11:30 – 12:00 pm **Echoes sub-bottom profilers for inland and coastal environments**
- 02:00 – 02:30 pm **Sparse LBL: Further improve navigation performance for Exail INS with single transponder aiding**
- 03:00 – 03:30 pm **Collaborative autonomy among USVs, ROVs, and AUVs for enhanced data resolution and exploration**
- 04:00 – 06:00 pm **Happy hour**
-
-

THURSDAY, MARCH 14TH

- 10:30 – 11:00 am **Optimize subsea assets deployment and recovery with Oceano acoustic release systems**
- 11:30 – 12:00 pm **Improve ROV observation efficiency through advanced navigation and cartography functions**
-
-
